

PRIVATE BETA · INVITATION

Cleo

Your Executive Career Intelligence

**From signal to offer,
in one system.**

Working overnight as your strategic curator — so director+ leaders stop drowning in off-level alerts and DIY job-search admin.

WELCOME, TESTER

20-day private beta · hello@mycleo.life · mycleo.life

Built for director+ leaders drowning in off-level alerts and DIY job-search admin.

BEFORE CLEO

You've signed up to a dozen job sites and your inbox is flooded with roles that are off-level, off-pay, or off-fit. You're stitching together a tailored resume, outreach research, interview prep, and a tracking spreadsheet – for every single opportunity. It's a second job, and it's burning your real one.

WITH CLEO

Cleo replaces that stack with one curator. It learns your level, pay, and qualifications, scans the market overnight, and surfaces only roles that actually match – with the tailored resume, outreach, and interview brief already prepared.

From signal to offer, in one system.

- STEP 01 Calibrate Profile**
Upload your resume – Cleo auto-fills targets, seniority, comp, locations, and must-haves.
- STEP 02 Surface Roles**
Real-time alerts plus a daily 7am PT digest. Only roles that pass your precision gate.
- STEP 03 Curate Matches**
Pursue or pass in seconds. JD AI summary and comp chips on every Application page.
- STEP 04 Orchestrate Opportunities**
Visual pipeline (New > Applied > Interview > Offer) with tailored resume per role and recruiter timeline.
- STEP 05 Engage & Interview**
Auto-drafted outreach (editable inline) plus an interview prep brief per round.
- STEP 06 Negotiate & Accept**
Comp benchmarks, counter-offer scripts, and a 90-day plan to launch strong.

Autonomous, not on autopilot.

Cleo runs the loop for you – but at any point you can edit auto-drafted outreach, add a recruiter timeline note, add a contact, manually move a job's status, tune your profile targets, or add a job you found yourself.

What we need from you

1. Run one full cycle.

Approve an opportunity Cleo surfaces – it triggers your tailored Executive Brief, Outreach, and Briefing package.

2. Rate the Briefing email.

Tap a star (1–5) and tell us in one line what was off.

3. Reply to the day-4 check-in.

Send us the one thing we should fix this week.

Known limits while we test

- Daily Market Scan: 2 runs and ~3 opportunities per day.
- Approves: 3 per day / 15 per month per tester (ping us to extend).
- Assistant chat: 50 turns per day per tester.
- Voice and tone are still being tuned – tell us when it sounds off.

How to send feedback

- **In-app:** Click Send feedback in the left sidebar (right under Ask Cleo).
- **Star + one-liner:** Rate any Briefing package email.
- **Reply to any Cleo email:** We read every one within 24h.
